DETAILED ACTION

1. This office action is in response to amendment filed on Dec. 27, 2005.

- 2. Claims 1-20, 22 have been amended.
- 3. Claims 23-25 have been added.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 5. Claim 1-12, 16-17, 19, 21, and 22 are rejected under 35 U.S.C. 102(e) as being anticipated by Anvekar et al. (6,684,072).

Regarding claims 1-12, 16, Anvekar discloses a global wireless prepaid roaming, comprising: a mobile switch center that supports a prepaid mobile communication device on a communication session (see fig.1, elements 110b, 190 and its description); wherein the mobile switch center connects the prepaid mobile communication device with an intelligent peripheral component to provide a service to the prepaid mobile communication device during communication session (see fig.1, element 130b, and its description); wherein the mobile switch center receives a service identification associated with service from the intelligent peripheral components (see fig.1, element 110b, fig.7, steps 710-730 and its description); wherein the mobile switch center

Art Unit: 2688

generated one or more triggered operations to a prepaid service node to send the service identification to prepaid service node (see fig.1, elements 110b, 180b, 130b 190, fig.7, steps 740-770 and its description).

Page 3

Regarding claims 17, 19, 21, and 22, Anvekar discloses a global wireless prepaid roaming, comprising the steps of connecting a prepaid mobile communication device with intelligent component to provide on or more services to the prepaid mobile communication device (see fig.1, elements 110b, 130b,190, figs.2-4 and its description); and sending one or more service identifications in a triggered operation to a prepaid service node for billing the prepaid mobile communication device for the one or more services received during connection with the intelligent peripheral component (see fig.1, elements 110b, 180b, 130b 190, fig.7, steps 740-770 and its description).

Allowable Subject Matter

6. Claims 13-15, 18, 20, 23-25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art Unit: 2688

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CongVan Tran whose telephone number is 571-272-7871. The examiner can normally be reached on Monday-Thursday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, George Eng can be reached on 571-272-7495. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
